Read the following passage and answer the questions

Most animals and birds depend on their senses to get their own needs from food and protect themselves. For example, owls sleep all day and stay awake at night. They eat at night. Owls have very large eyes. They can find food in the dark. Owls also have very good hearing. This helps them eat the animals easily. Mice also use their senses. They can smell very well. This helps them find food in the dark and hide from animals. Most birds, snakes, and lizards like to eat mice.
