## II- Reading Comprehension (12 Marks)

**Read the following passage, then answer the questions below:**

Dear Nada,

I want to write to you about the book I bought at the book fair. It's about birds. I wanted to know more information about different kinds of birds. My book was about "The Bee Hummingbird". The bee hummingbird is the smallest bird in the world. This bird comes from Cuba. It is an island near America. All hummingbirds are small, but this one is tiny. It is as long as your little finger. It is called a bee hummingbird because it is not much bigger than a bee. Hummingbirds are different from other birds in the way they fly. They move their wings so fast that you can't see them. The hummingbird can stay in one place in the air. It is really an amazing bird.

Looking forward for your next email.

Yours,  
Rana
