(A) **Read the following text carefully, then answer the following questions**

The United Arab Emirates (UAE) is a country with a lot of oil. Oil brings the country billions of dollars each year. So why is the UAE building a city that uses very little or no oil? The answer is simple: oil will not last forever. But there is another resource people can use instead of oil - the sun.

In fact, engineers are now building a new city that uses mostly solar energy for its power. The city is called Masdar, and it is about 20 miles (32 km) from Abu Dhabi, one of the largest cities in the UAE. If it is a success, Masdar will be the first city in the world that uses little or no oil.

Masdar is a small city of only 2.3 square miles (6 sq.km). In the future, it will hold 50,000 people, more than 1,000 companies, and a university. Its streets are very narrow and the houses are very close to each other. The shade from the houses helps keep the streets cool.

There are no cars on the streets of Masdar. Because the city is so small, people can walk to most places. If they get tired, they can use the PRT: Personal Rapid Transit. These small, solar-powered cars move underground, like a subway. The cars have no drivers so people just tell the car where **they** want to go, and it takes them there.

Masdar will reuse as many resources as possible. It will reuse about 80 percent of its water and change most of its waste into more energy. People in Masdar are even using building materials that they can reuse in the future. Can this city really be **advantageous**? No one knows. But if it is, there could be other low-energy cities around the world in the future.

(A) **From a, b, c and d, choose the correct answer: (5x1-5 Marks)**

1. **The best title for this passage could be:**

   Ⓐ **A City Without Oil**

   Ⓑ **The Streets of Masdar**

   Ⓒ **The Resources of Power**

   Ⓓ **Solar Energy Cars**

2 The underlined word "advantageous" in the 5th paragraph is closest in meaning to:

Ⓐ boring
Ⓑ helpless
Ⓒ useful
Ⓓ dangerous

3 The underlined word «they» in the 4th paragraph refers to:

Ⓐ drivers
Ⓑ people
Ⓒ the cars
Ⓓ most places

موقع المناهج الكويتية almanahj.com/kw

4 According to the passage, all the following statements are TRUE EXCEPT:

Ⓐ Masdar is a small city only 2.3 square miles.
Ⓑ There are lots of cars on the streets of Masdar.
Ⓒ Masdar will reuse as many resources as possible.
Ⓓ Oil brings the country billions of dollars each year.

5 The writer's purpose in writing this passage is to:

Ⓐ describe a future city in the UAE.
Ⓑ explain how to keep the streets cool.
Ⓒ advise people to move to the UAE.
Ⓓ inform readers about using building materials.

(B) With reference to the passage, answer the following questions: (3 X 2 = 6 Marks)

6 What will Masdar city hold in the future?

.....

.....

7 How can people use the Personal Rapid Transit cars (PRT) in Masdar city?

.....

.....

8 What kind of energy does Masdar use its power?

.....

.....

(I) *Summary Making (10 Marks)*

(A) Read the following passage, then do as required:

There are people who have much more than they need to live, while others have very little to survive. One cannot make the needy people rich but can provide them with daily needs. Raising donation as money, clothes, food or shelter helps to direct their efforts to live a decent life. Also, good education can ensure a long-lasting improvement in their lives. Building relationships among them helps increasing their self-confidence. Moreover, giving them certain responsibilities, such as registering them in different society services will push them to work harder in order to gain the society's trust and respect.

(B) In a paragraph of FOUR sentences ONLY, summarise and paraphrase the passage above in answer to the following question:

How can we help the needy people?
