## Reading Comprehension

### Read the following passage then answer the questions below:

In England, many parents think that they must teach their children how to swim to make them more respected and stronger among their friends. They usually take them to public swimming pools or sports clubs on holidays.

One often sees parents anxious trying to force their **frightened** children to swim. I believe that pushing the little child to water can be a big mistake. Parents commit another mistake which is to give children a rubber ring or wings to help them. This makes the child think that it is dangerous to get his / her head under water.

When my children were young, we usually spent the weekends in mountains where there was a circular water tank. It was about two meters deep. I let **them** swim there. I never gave them rubber rings or water wings while they were in water. My eldest son began to jump into the tank. Soon, his brother and sister got used to water and did the same thing.

Whatever reasons one might come up with, it has been scientifically proved that fasting has tremendous health, spiritual and physical benefits.

It is known that fasting helps **eliminate** or neutralize toxins through the colon, liver, kidneys, lungs and skin. It leads to the cleaning of the whole body. ### Read the following passage then answer the questions below:

No wonder that salt has many uses in our life. It is added to food, pickle and fish. It is also used to preserve some types of food. Despite the bad side effects of adding too much salt in some dishes, still many people like it. But have you ever asked yourself about the time and place where it was first discovered and used?

In fact, we don't know when man first began to use salt, but we know that it has been used in many different ways throughout the history. People who lived over 3000 years ago ate salted fish. Thousands of years ago in Egypt, salt was used to **embalm** the dead.

In the 18th century, if a person was caught stealing salt, he could be put in jail. About 150 years ago, stealing salt was considered a crime. The criminal's ear was cut off as a punishment. In the Roman Empire, one of the most important roads was the one that carried salt from the salt mines to Rome. Guards were kept along the route to protect it against **its** thieves.

In the early days in the USA, salt was scarce. So, the store-keeper was very careful with his salt. As he poured out salt for his customers, he did not like anyone to cross the floor of the store.

## Reading Comprehension

### Read the following passage then answer the questions below:

Have you ever heard the sound of a hummingbird? They make a buzzing noise when they fly. They make this noise because they beat their wings so fast. They fly in a unique way. They move their wings so fast that they can hover in the middle of the air, like a helicopter. Sometimes they hover upside down. They are the only birds that can fly backwards.

Hummingbirds are small. The bee hummingbird, which is a type of hummingbirds, is the smallest bird in the world. It is just a little bit bigger than a bee. Bee hummingbirds build tiny nests.

Hummingbirds move fast. It takes lots of energy to move as fast as they do. This means they need to eat a lot of food. They have to store enough food energy to survive through the night. Their favourite food is nectar, a sweet liquid found in some flowers. Hummingbirds don't use their long beaks for drinking nectar, they use their tongues. Their long tongues work like little pumps. They visit hundreds of flowers daily.

Hummingbirds help flowers too. They get pollen on their heads when they feed. Flowers use pollen to make seeds. Hummingbirds help pollen get from one flower to the next. This helps flowers make more seeds. More seeds means more flowers. More flowers means more food for hummingbirds. Isn't it nice how that works out?

Soon she **realized** and became aware of the fact that she would not have any food left for the long winter. She went to her hardworking cousin and asked for food. "Why don't you have any food," the hardworking mouse asked. "I've been busy playing and sleeping", the lazy mouse said. "Well, here's a basket, stop being lazy and gather some food for yourself," said the hardworking mouse.

While the lazy mouse was gathering food, she came across a grasshopper playing happily in the fields. "Hey mouse," said the grasshopper. "Come and play with me instead of wasting your time gathering food! "I only have a few days to collect food," said the lazy mouse. "You should be gathering **some** too." "Oh please," said the grasshopper. "I have plenty of grass, corn and leaves, I'd rather have fun. "The lazy mouse said goodbye and continued to gather her own food.
