Reading Comprehension

Read the following passage and then do the tasks below:

Max reads more than anyone he knows. He loves to read books during his free time. His friends laugh at him because he would rather read than play video games, but his parents and his teachers are proud of him. **They** say reading is important, and it will help him learn about the world around him.

One day, Max was reading a magazine article about volcanoes. He told his friends all about volcanoes and what causes them to **erupt** and send fire and smoke. The very next week, his class was assigned a science project about volcanoes. Guess who everyone wanted in their project group? Max ended up being in a group with Tim, Hank and Josh. The project was to create a poster with information about volcanoes and to build a volcano model. So, the group went to the library to look for more information about volcanoes. They met at Hank's house that night to organize the information and decide what they wanted to put on the poster board. They all asked Max what he thought was most important.

The next night, they met at Josh's house to build their volcano. They used cardboard and modeling clay. The volcano looked great. Max, Tim, Hank and Josh were very proud of their hard work. When they turned in their project, their teacher was proud too. Thanks to Max's good habit, they earned an A+ on both parts of the project.

Reading Comprehension

Read the following passage and then do the tasks below:

Water is the most important source of life on Earth. We can't live without it. Without water we would die of thirst. Three - quarters of the planet is covered by water. Most water is in oceans, seas and rivers. Water is frozen and forms ice caps at the North and South poles because it's very cold there. Then, it turns back to be fresh water when it melts in summer.

Water goes round in a **process** called the water cycle. Clouds in the sky contain water as a gas-water called vapour. This gas becomes liquid and falls to Earth as rain or snow. The rain brings water to seas, rivers and lakes. Water also goes into the soil then plants take it.

You need water to stay alive. Your body loses water when you breathe or sweat. You can stay for more than a week without food, but if you stay without water for three or four days you may die. Plants need water to live. We have to use water carefully. We should also use water wisely so that there will be enough of it left for our future life.

Reading Comprehension

Read the following passage and then do the tasks below:

Turtles are one of the oldest animals in the world. They can live for about 150 years. You can find them living almost anywhere. There are two main types of turtles, sea turtles and land turtles. The largest turtle in the world is the leatherback sea turtle, which can weigh over 900kg.

Turtles are special animals! They can live in land and in the sea. The temperature of their body changes based on how hot or cold it is outside.

Turtles have a hard shell covering their bodies. They are able to hide their heads inside their shells if they feel anxious. This will keep them safe from other dangerous animals. The hard shell may makes them move slowly. They will not need to run fast from other animals if they can hide inside the shell.

You may wonder what do turtles eat? There are several types of turtles which can eat different types of food. Land turtles eat only plants such as grass and fruits. However, sea turtles eat sea animals like jellyfish and squid. Some turtles eat both meat and plants.

Reading Comprehension

Read the following passage and then do the tasks below:

Birds are a special group of animals, known for having feathers and wings. There are around 10,000 different kinds of birds worldwide. Ostriches are the largest birds and **they** also lay the largest eggs and have the fastest maximum running speed of 97 km/h. The most commonly eaten egg is a chicken's egg.

Some birds can fly high in the sky because they have light bones. Birds fly through the air by **flapping** their wings up and down. Hummingbirds can fly backwards. They are the only birds that can do so. These birds can also fly upside down when they want to run away from dangerous birds. Other birds, like the kiwi bird, cannot fly because its wings are too small. Another reason why some birds can't fly is because their bones are too heavy.

Birds are also known for being very smart. Some birds can sing at any time of the day. But most of them do their singing in the early morning as if they were chatting with one another. Other birds like parrots and parakeets can **remember** and repeat a lot of new words and repeat them clearly. They are known for being excellent pets!

A) - Choose the correct answer from a, b, c and d:

4. The opposite of the underlined word "**remember**" in the 3rd paragraph is
 - a. lay
 - b. run away
 - c. forget
 - d. repeat
5. Why can't some birds fly?
 - a. Because their bones are too heavy.
 - b. Because their wings are too big.
 - c. Because their bones are light.
 - d. Because they lay large eggs.

All's well that ends well!

6. The kiwi bird can't fly because:

Reading Comprehension

Read the following passage and then do the tasks below:

Do you have an iPad, iPhone or a Mac computer? Did you know that Steve Jobs made the company – Apple – that created these things. He was born on February 24, 1955, in California. When he was a boy, he had a special hobby; he liked to take televisions apart and put them back together again.

Steve Jobs was a very good student at school. He graduated from high school at the age of 17. Then he began his studies in Reed College, in Portland, but he dropped out after six months. Deciding to quit university was not easy at all. It was difficult, but as Jobs later said, "I had no idea what I wanted to do with my life." Two years later in 1974, he travelled to India. There, he met a friend who became later his top employee in Apple.

After Steve Jobs returned to the United States, he found a job as a videogame designer at a company called Atari. After two years, in 1976, when he was only twenty-one, he created his own company – Apple Computer – with his friend, Steve Wozniak. Steve Jobs later got married in 1991 and had four children. Unfortunately, doctors discovered that he had cancer in 2003 and he died in 2011.
