READING

Teacher_anwaralmethen

In the sky, you can see the sun, stars, and the moon. The sun is up during the day. It is very hot. The sun gives us light and heat. Plants need the sun to grow. We can see the stars at night. They give off light and heat, like the sun. There are more stars than we can count. The moon is out at night. Sometimes we can still see it during the day! It does not give off light and heat.
